The Education Department of SNEC is requesting your help in supporting the **+1** initiative for Adventist Education. **+1** is an initiative geared towards helping to provide resources for students and teachers that is above and beyond the reach of the local church or school budget. It will also help support professional development for are teachers. It will also be available as seed money to help with capital expansion projects at existing schools, in addition to helping to plant new schools throughout SNEC.

+1 is not for tuition assistance, it is for the extras a classroom or teacher might need to enhance the education process.

The request is for a 1% donation (thus the **+1**) each pay period to SNEC Education **+1**. There is a tagline on Adventist Giving/SNEC.

Together we all can make a significant difference in the education of the students in our schools.

Would you please join us in making **+1** a dedicated support for Adventist Education. It is time we move our education program to the forefront.

Thank you for prayerfully considering this opportunity.

Your Education Team,

Beverley Bucknor

Vice President for Education

Brian Allison

Associate Superintendent for Education

Cacilda Morris

Administrative Assistant
